Gene Albright Responsible for Almost All Work with Digital Images

Although you see the names of chairpeople associated with the various division competitions, their work is predominantly with the slides that were still turned in in 2008. As you could see as the year progressed, there were fewer and fewer slides and more and more digital (electronic images). They also helped with the certificates of those who had placed in the monthly competitions and for that we are grateful to Nancy Johnston and Walt Braun.

Gene, however, was sent all of the electronic images

to organize for the competitions. Not only did he do that, but he also usually projected the images. Finally, he put them in a format that the Foto Fanfare could utilize easily. These are no easy tasks, requiring a lot of time and effort and we should all be thanking him heartily for that job.

Next year there will be no more slides accepted in competitions. Gene will have two helpers in Nancy Johnston and Walt Braun.

We realize how important Gene's work is as he is currently recovering from heart surgery.

Thank you so much, Gene, for all of your dedication.
